This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

It would be difficult to convey an idea of the beauty and spirit with which they are executed. They were all submitted by the artist to the inspection, and received the approbation of Mr. Kerr, the Botanist, who was sent from Kew to China by the late King. That eminent Botanist pronounced their fidelity to equal their beauty.

105. — 788 Description de l'Egypte, ou Recueil des Observations et des Recherches qui ont été faites en Egypte pendant l'Expédition de l'Armée Française. The two first Livraisons, and first portion of the third, consisting of 22 Parts of Letter Press and Engravings, in various sizes, Medium Folio, Atlas Folio, and Super Atlas Folio.

*** This is one of the most magnificent productions of France since the Revolution. Bonaparte appears to have wished to cover his Egyptian Defeat with the splendour of Victory, and to intimate to the French, by this work, that conquest was within his grasp had not his Destiny recalled him to a more important career. Accordingly, the first artists were engaged to bestow on this work their most brilliant efforts. Success was sure to be remunerated with Imperial munificence, while failure or even negligence would be attended with inevitable disgrace. In consequence, the PLATES ARE ALL EXECUTED ON THE MOST EXTENSIVE SCALE AND IN THE MOST SPLENDID MANNER, and form a grand and brilliant exhibition of the remains of ancient Egypt, and of whatever is most striking in the Palaces, Buildings, Scenery, Arts and Sciences of Modern Egypt. The PLATES OF NATURAL HISTORY ARE HIGHLY COLOURED,

584 KYNGE RICHARD CUER DU LYON, AN ENGLISH METRICAL ROMANCE, *with wood cuts,* IMPRYNTED BY WYNKYN DE WORDE, 1528

*** This most interesting Metrical Romance of Richard Cœur de Lion, who has been emphatically called THE KING OF CHIVALRY, is of the VERY FIRST RARITY. Hearne says, in his Robert of Gloucester, *he never could hear of any other perfect copy* than the one in the Harleian Collection: nor any one even imperfect, than that in the Bodleian. Since the days of Hearne, one other perfect copy has been discovered, which was formerly in the Lansdowne Library. The present copy was obtained from Auditor Harley's Collection, and wanted at the time of the Sale one leaf, which has been admirably reprinted in fac-simile, and the wood plate cut on purpose.

585 Rocquigny, La Muse Chrestienne, *portrait by Payne, brilliant impression,* - - - 1634 3 12 .

The Portrait of Rocquigny is therefore connected with the English Series, and has escaped the notice of Granger.

*** It has been asserted by Bibliographers that only 20 copies were printed of this very curious, valuable, and interesting History. The number must have been unquestionably very small, for it is ONE OF THE RAREST WORKS APPERTAINING TO ENGLISH HISTORY, Harley Earl of Oxford gave forty pounds for a copy at Rawlinson's Sale. Mr. Dibdin has given an account of this edition in his Bibliomania, p. 338 to 342. The present copy contains what Mr. Dibdin styles "The gem of every perfect copy, the very rare portrait," which is generally wanting in the few copies that are known.

(*Sine ulla nota Anni aut loci, sed circa,* 1480.)

*** A Book of great rarity and curiosity. No Collection of Tales enjoys a greater reputation in the East. Sir W. Jones in his Discourses on the Hindoos, thus expresses his admiration of them, and points out the real name of the author "The Fables of Vishnusarman, whom we ridiculously call Pilpay, are the most beautiful, if not the most ancient in the world." This Latin version was made by John de Capua from the Hebrew, and is the parent of all the European Translations. See Ellis's Metrical Romances, vol. 3. This is THE FIRST AND ONLY EDITION PRINTED IN THE XVth CENTURY. Vide Serna Santander and Panzer.

*** Mr. Dibdin in the Bibliotheca Spenceriana has pronounced this Work to be "*the most perfect specimen of the Press of Aldus and of the tastefulness of Wood Engraving in the XVth Century.* He devotes 10 pages to a description of it. It is a most magnificent Book upon vellum. There is only one more copy known in England, which is in the possession of the Duke of Devonshire. In the present beautiful copy the work itself is perfect, but the leaf of Errata is reprinted upon vellum, and as Debure justly observes "avec une parfaite imitation de l'original." There is not a Copy upon vellum in the King of France's Library.

*** THE FIRST BOOK PRINTED BY CAXTON, A BOOK OF GREAT CELEBRITY, AND ONE OF THE RAREST OF RARE BOOKS. Mr. Bryant justly observes, it must have been printed by Caxton between the years 1464 and 1467, as the author is here spoken of as Chaplain to Philip Duke of Burgundy, *who died in* 1467. In his Translation in 1471 Caxton speaks of the author as Chaplain "to the noble Prince *in his time*, Philip Duke of Burgundy." Mr. Dibdin in his Typographical Antiquities says, "probably there are not three perfect copies in existence." The only other perfect copy known in Great Britain is in his Majesty's Library. This is A MOST MAGNIFICENT COPY, UNCUT, IN THE ORIGINAL BINDING, *and unquestionably the finest which is known.*
